EDUCATION

Georgia Institute of Technology

Bachelor of Science, Computer Science

May 2027

Atlanta, GA

- **Coursework:** Data Structures & Algorithms, Objects & Design, Computer Organization & Programming, Artificial Intelligence, Machine Learning, Discrete Mathematics, Linear Algebra, Multivariable Calculus, Probability & Statistics

TECHNICAL SKILLS

- **Machine Learning:** PyTorch, TensorFlow, scikit-learn, FAISS
- **Data:** pandas, NumPy
- **iOS Development:** Swift, SwiftUI, Core ML, MVVM
- **Backend & Databases:** SQL, MySQL, MongoDB, Firebase, Node.js
- **Programming Languages:** Python, Java, C, JavaScript
- **Tools:** Git, GitHub

PROJECTS

Multimodal AI Search Engine

Feb 2025 - Nov 2025

- Developed a visual search engine by indexing over 10,000 images using CLIP embeddings and FAISS, retrieving semantically relevant images from natural language prompts with an average query time of 2 seconds.
- Built and deployed a Streamlit interface for real-time, scrollable image results, demonstrating practical ML deployment and cross-modal embedding techniques.

JotDown

Sep 2025 - Dec 2025

- Architected the application's UI with SwiftUI, employing an MVVM design pattern to build a responsive and minimalist interface for frictionless data entry.
- Integrated on-device Core ML models to perform Natural Language Processing, enabling a semantic search feature that recognizes entities like dates and keywords within user queries.
- Designed a data visualization module to generate a knowledge graph from user notes, modeling semantic relationships to uncover latent themes and connections.

Real-Time ASL Interpreter

May 2025 - Present

- Engineered a real-time ASL interpreter for static alphabet letters using MediaPipe and scikit-learn, achieving 95% classification accuracy on gestures captured from a live webcam feed.
- Integrating text-to-speech functionality that activates on new predictions, with a mute toggle and a "None" class for unclear gestures for a better user experience.

EXPERIENCE

Georgia Tech iOS Club

Jan 2026 - Present

Senior iOS Developer

Atlanta, GA

- Selected as a Senior Developer to lead development of iOS applications in a competitive, project-based club environment.
- Collaborate with designers and developers to architect SwiftUI features using MVVM.
- Review pull requests, provide technical feedback, and mentor junior developers.
- Contribute to production-level iOS codebases following Git/GitHub best practices.

Waffle House

May 2024 - Feb 2025

Salesperson

Cumming, GA

- Delivered customer service in a high-volume, fast-paced environment while ensuring order accuracy and satisfaction.
- Managed point-of-sale transactions and balanced cash/tips with strong attention to detail.
- Collaborated with team members to maintain efficiency and resolve issues quickly during peak hours.
